Specialization Description

Launch Your Career in Data Science

Ask the right questions, manipulate data sets, and create visualizations to communicate results. This Specialization covers the concepts and tools you'll need throughout the entire data science pipeline, from asking the right kinds of questions to making inferences and publishing results. In the final Capstone Project, you'll apply the skills learned by building a data product using real-world data. At completion, students will have a portfolio demonstrating their mastery of the material.

Frequently Asked Questions

How should I represent my completed Coursera Specialization Certificate on my resume/C.V.?

We'd recommend "Data Science, a 10-course specialization by Johns Hopkins University on Coursera. Specialization Certificate earned on August 5, 2017".
